#### CONDITION OF TRADE. "Dun's Review" says:

Surplus ..... \$76,626 \$70,456

Dun's Review" says:

Trade reports are less uniformly favorable, but adverse factors are of a temporary nature, and the net results for the week are satisfactory. Namesous strikes have occurred, exerting the customary pernicious influence over business, and the epidemic of yellow fever is restricting Southers trade. On the other hand, thermal conditions have facilitated retail trade, crop prospects have streatly improved, and out of town buyers are numerous in all the leading markets. Preparations for winter and spring distribution of merchandise are no longer handicapped by uncertainty regarding agriculture, for harvest operations are pro-

THE PEOPLE OF THE STATE OF NEW

gressing rapidly under better than average conditions, and there is little anxiety regarding the
future. Manufacturing plants are increasingly
active, textile mills still occupying the strongest
position, while shee shops are not making concessions to get business. Fron furnaces and steel
mills make progress, but less rapidly. Lumber
mills and dealers are having an exceptionally busy
season, as might be expected, in view of the
lutest reports regarding the increase in number
and value of building permits at the largest cities.
Railway earnings in July were 7.4 per cent greater
than in the same month last year, and foreign
commerce at this port for the last week showed
on increase of \$5.817.489 in imports while exports
decreased \$1.982.271. Little change has occurred in
the financial situation, rateg ruling easy, while
prices of securities have risen close to the highest
point on record. Bank exchanges at New-York for point on record. Bank exchanges at New-York for the week were 47.5 per cent larger than last year, and at other leading cities the increase amounted to 14 per cent. "Bradstreet's" says:

"Bradstreet's" says:

Vall trade, stimulated by excellent crop advices, continues to expand at wholesale. Increased purchases, a wider range of selection and some improvement in collections are noted East. West and Gouthwest. Yellow fever quarantines restrict demand and shipment in the lower Mississippi valley, but signs of easing of absurd and illogical regulations give hope of better conditions in the near future. Lines noting special activity at the West are dry goods, notions, hardware, lumber groceries and shoes. One-half of the 1935 wool clip is already sold, worsted manufacturers report orders booked for six months, the shoe and leather trades are doing an increasing business at steadily advancing prices, cotton goods sellers cannot begin to satisfy requests for prompt shipments, finished iron and steel show great activity, shipbuilding on the Atlantic coast has improved, and, although there is some unrest in labor matters, the industrial situation reveals few important flaws. Prices of cereals and cotton show some easing on better crop reports or increased movement, but fais is compensated for by more active export demand at concessions, and, taking staple prices as a whole, the level of values, as indicated by Bradstreet's index number, is at the highest point reached in midsummer for fifteen years past.

### TRADE IN CHICAGO.

TRADE IN TRIBURE!

[BY TELEGRAPH TO THE TRIBUNE.]

Chicago, Aug. 11.—Wheat received some help from the revival of Russian crop failure talk and from some information from the Northwest that differed materially from the rose colored reports of the heavy thrasking returns in South Dakota and Minheavy thraski neavy thrashing returns to industriously sent out from Minneapolis. There was nothing definite made public on the poor thrashing results, but the reports were said to be from reliable sources. The market closed on a %c savance. Corn was very firm, and from %c to %c higher. Oats closed without note-worthy change, and provisions had a material raily from lower prices made at the opening.

The wheat market showed unexpected strength at the opening, because some local shorts sought to cover, and a little competition ensued for the limited offerings, resulting in an advance of a above yesterday's closing figures. Later the market declined to a trifle lower level than the final prices of the declined to a trifle lower level than the declined than the declin prices of the day before. Local receipts were 186 cars. The estimate for to-morrow is 217 cars. The highest for September was 8314c, and the lowest Size: the close was 82%c. December closed at 84c, after selling as high as 84%c and as low as 82%c.

Corn was quiet but firm. Heat and drouth made future deliveries strong. The Eastern demand for corn was general, with considerable sales. Local receipts were 173 cars, of which eighty were contract, and 425,000 bushels of that quality were transferred from private elevators. Shipments hence were 120,000 bushels. The estimate for tomorrow was 208 cars. September sold from 64c to 54%c. closing at 54%c. The range of December was from 47%c to 48%c, closing at 48%c. General selling by cash houses was the feature of the opening of the oats market. Liberal country acceptances and heavy receipts were depressing factors. Later in the day there was a better feeling and trade was more active. Receipts were 420 cars. with 445 estimated for to-morrow. Shipments were 221,000 bushels. There was some good buying by the Patten crowd at the close. September closed at the top 25%c to 25%c-after selling as low as 25%c to 25%c. December sold from 27%c to 27%c. closing at 271/c.

Provisions were off early on local selling, pork in particular, showing a decline of 17%c, but packers put in buying orders later, and prices soon reacted to a higher level. Armour was a good buyer of ribs on the advance. Cudahy interests buyer of ribs on the advance. Cudany interests were bidding up lard prices, and Swift caused pork prices to advance. September pork sold from \$12.56 up to \$14.156/\$14.17%. September lard sold from \$7.70 off to \$7.65 to \$7.67%, and reacted to \$7.73%. September ribs sold from \$3 to off to \$8 35, and reacted to \$8 424. Hog receipts were 11,000 prices at the yards were 5c higher. Hog receipts were 11,000 head, and
